TARGETING **ZERO** DOWNTIME SOLUTIONS

Time is a crucial aspect when trying to get a job done.

Improvements in product and user safety, higher performance tools and accessories or rapid repair service solutions. Whatever the solution you are looking for, Bosch Onsite will work with you to reduce downtime on your sites.

1 SAFETY

Safety is our number one priority, making sure you get home safely at the end of each day.

3 PERFORMANCE

High performing tools for every application and job.

2 PRODUCTIVITY

Faster and safer applications to improve productivity and profitability.

4 INNOVATION

Global leading technology within our tools.

5 SERVICE

Asset management and servicing of your tools.

X-LOCK

**Innovative technology
invented by Bosch.**

Reduce downtime in just one click.

X-LOCK, the world's first quick-change angle grinder, delivers improved safety, faster application times, reduces downtime and increase productivity. X-LOCK technology from Bosch sets a new standard for product and user safety.

X-TRA FAST

**Reduce downtime on site, switch
between applications in seconds.**

X-TRA SAFE

**Eliminates common safety issues onsite
such as hand tightening, loose locking nut,
incorrect fitting and much more.**

X-TRA RELIABLE

**A single click confirms that the
accessory is securely locked.**

Over 40 brands now on X-LOCK.

SAVING SECONDS CAN SAVE YOU THOUSANDS.

- ▶ Improve Safety
- ▶ Reduce Downtime
- ▶ Increase Productivity
- ▶ Cost Improvements

HEALTH AND SAFE

**YOUR PEOPLE ARE YOUR BIGGEST ASSET,
GIVE THEM THE BEST PROTECTION.**

Kickback Control from Bosch is now found on our angle grinders, drills and rotary hammers. Bosch sensor based protection system detects in seconds a kickback situation and shuts the tool down, immediately protecting the user.

Vibration Control reduces vibration by up to 60% lowering fatigue and the risk to the user. The long term effects of vibration such as white knuckle disease are also reduced.

Stops accidental restart if the power is disconnected then reconnected, protecting users from potential injury hazard.

Drop Control now senses when a tool is dropped with the switch engaged and immediately shuts the tools off.

Protection Guard's on our Bosch angle grinders reduce shattered discs and sparks aiming in the direction of the user while in use.

Protection Switch (Deadman Switch) shuts the tool off when the switch is released.

SAFETY WITH ON SITE

Remove Silica Dust at the source.

Silica Dust and its control is a high priority for working safely on site. Bosch Power Tools offer one of the industries best ranges in silica control products available.

Full range of M and H class vacuums, attachments and accessories.

BOSCH INNOVATION

EXPERIENCE INNOVATION: BOSCH ACCESSORIES EXCEL IN ENDURANCE AND EASE OF USE

Construction materials and the working environment are constantly changing as well as the expectations and lifestyle demands of workers themselves. Therefore, evolving our power tool accessories to continue to meet the constantly changing demands of users and the industry is at the heart of what we do.

BEST TUNGSTEN CARBIDE

Bosch Carbide Technology combines an optimum grade of tungsten carbide with the most advanced manufacturing techniques.

INCREASED ACCESSORY LIFE

The professional craftsman can step up from standard power tools accessories to carbide accessories to experience increased accessory life.

Performance benefits

- ▶ Enduring Sharpness
- ▶ Extreme Heat Resistance
- ▶ Price Performance
- ▶ Increased Productivity

DETECTORS – MAKE THE INVISIBLE VISIBLE

Doesn't matter if you're checking heating and air conditioning systems or attempting to uncover issues such as leaking water pipes, Bosch thermal cameras make your work more efficient. With the use of Bosch thermal cameras, you can accurately check temperatures of radiators, vehicle engine compartments, detect overheating in electrical installations and energy losses – all with one simple device. Connect your smartphone or tablet to the tool and import all your saved thermal images and data, via the Bosch thermal app.

Locating of objects has been made easier with Bosch Radar Technology allowing detection of cables, live wires, metal, plastic pipes, wooden studs and most common objects behind walls. Bosch detectors offer clear visualization of detected objects with the new 'water leakage' function and unique spot mode feature through the intuitive user interface.

GREEN BEAM – INNOVATIVE LASER TECHNOLOGY

Our innovative green beam technology covers a range of products from indoor and outdoor line lasers to our laser distance measurers. With up to four times better visibility with green laser lines than red lines, greater clarity is offered. These tools are fast and easy, with self-levelling features and offers precise lines with high visibility.

OUR OTHER SPECIALIST BRANDS

DREMEL®

Dremel is a versatile rotary tool that enables users to cut, grind, sand, polish, carve, engrave, clean, and rout. With a wide range of accessories and attachments, users can customise their tool kit, and build the ultimate solution for their trade.

Whether you're a cabinet maker, electrician, or plumber, Dremel has a solution to finish the job with power and precision.

Choose from a range of corded and cordless tools, engravers, and butane tools. Add attachments to reach and control and select from colour coded accessories.

‘THE GAME CHANGERS’

Diablo continues to change the market forever as the Industry Leader when providing superior solutions to the professional tradesman. Diablo’s innovation steps up the market, increasing quality and improving performance.

Diablo products are manufactured in the world’s most technology-advanced facilities to consistently provide high-quality results every time; saving you time and money.

Diablo manufactures premium circular saw blades, reciprocating blades, SDS-Plus and SDS-Max hammer drill bits, oscillating multi-tool blades, jig saw blades, hole saws, sanding discs, sheets, & belts, impact & rotary drill bits and screwdriving bits, of which all are specifically designed to provide superior performance while withstanding the most extreme conditions

sia Abrasives

Your Key to a Perfect Surface

One of the world’s largest manufacturers of high-quality abrasive products, we develop and produce abrasives with a wide variety of shapes, dimensions and specifications.

Through the technology involved in creating our abrasives, application on all surfaces leaves your work with a perfect finish. With specialists based in Australia, we are available to consult with you on process improvement and optimization in a range of applications.

Our best-in-class ceramic technology especially within our **4582 siaramic** fibre discs enable a clean cutting action with our optimal triangular shaper, delivering fast stock removal and a cooler grinding temperature. Overall increasing the disc lifetime.

THE BOSCH

Our products and services are designed to spark enthusiasm, improve quality of life, and help conserve natural resources. We want to deliver top quality and reliability. In short: we want to create technology that is 'Invented for life.'

- ▶ RESPONSIBILITY AND SUSTAINABILITY
- ▶ RELIABILITY, CREDIBILITY, LEGALITY
- ▶ INITIATIVE AND DETERMINATION
- ▶ DIVERSITY
- ▶ OPENNESS AND TRUST

GROUP

OVER 136 YEARS
OF INNOVATION

CO₂
neutral since 2020

Bosch is the first major industrial company to have attained CO₂ neutrality (in Scope 1 & 2) at its 400 sites.

But at Bosch, climate protection goes even further...

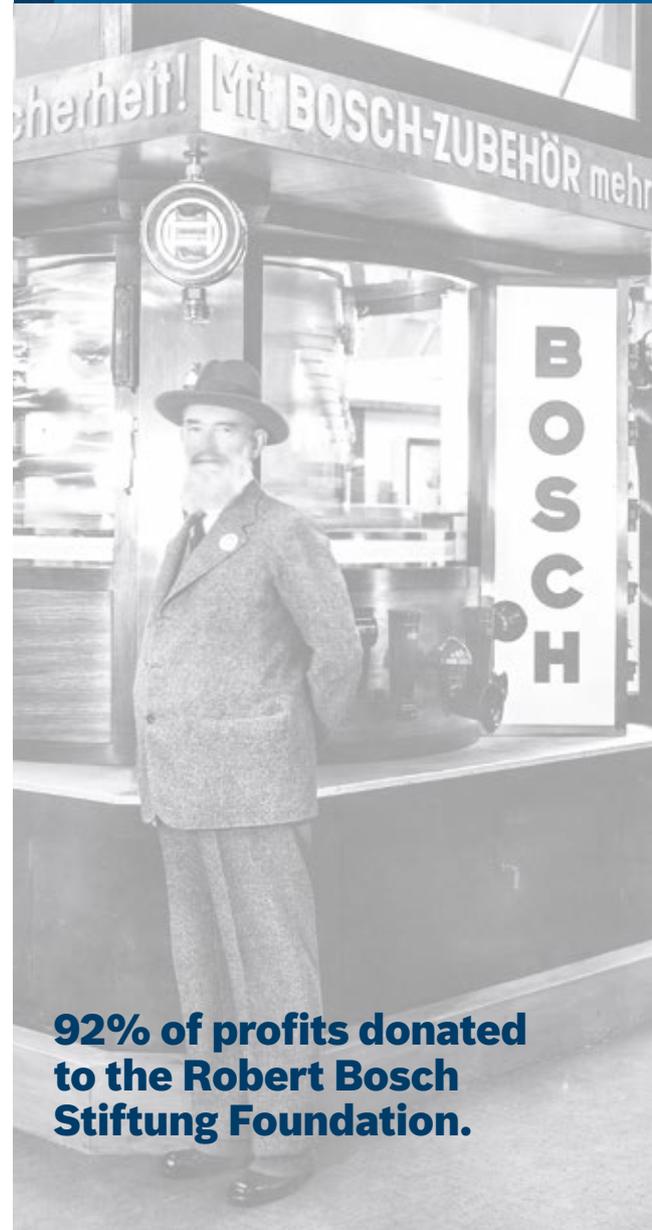

4 levers to achieve this goal:

- ▶ energy efficiency was increased
- ▶ the energy supply from renewable sources was expanded
- ▶ the purchase of green electricity was increased
- ▶ all unavoidable CO₂ emissions are offset with climate compensation measures

SUSTAINABILITY

Bosch plays a pioneering role in climate action – out of conviction and out of a sense of responsibility for society. Bosch has set itself clear sustainability targets with its 'New Dimensions – Sustainability 2025' target vision.
